

# Consent Form

Melbourne School of Psychological Sciences

## *Project: Vocabulary centrality in the mental lexicon*

**Responsible Researcher:** A/Prof Andrew Perfors

**Additional Researchers:** A/Prof Meredith McKague (co-researcher), Dr Simon De Deyne (co-researcher), Mr Andrew Wang (PhD student)

1. I consent to participate in this project, the details of which have been explained to me, and I have been provided with a written plain language statement to keep.
2. I understand that the purpose of this research is to investigate the representation of language in the mind.
3. I understand that my participation in this project is for research purposes only.
4. I acknowledge that the possible effects of participating in this research project have been explained to my satisfaction.
5. In this project I will be given some optional demographic questions and then complete a language task that involves guessing words that fill in the blank in sentences.
6. I understand that my participation is voluntary and that I am free to withdraw from this project anytime without explanation or prejudice and to withdraw any unprocessed data that I have provided.
7. I understand that the data from this research will be stored at the University of Melbourne and will be destroyed after 5 years.
8. I have been informed that the confidentiality of the information I provide will be safeguarded subject to any legal requirements; my data will be password protected and accessible only by the named researchers.
9. I understand that after I return this consent form, it will be retained by the researcher.

By clicking "continue", I indicate that I agree with the terms laid out in this form.
